EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya , Indore

2023 - 2027

Bachelor of Technology, Computer Science Engineering

PROJECTS

Task Manager Platform | MongoDB, Express.js, React.js, JWT Auth

[Jun 2026]

- Developed and deployed a full-stack MERN task management application featuring secure JWT-based authentication and protected routes
- Implemented complete CRUD functionality, task status tracking, advanced search and filtering, and dashboard analytics for enhanced productivity management.
- Designed RESTful APIs and integrated MongoDB for persistent data storage, deploying the frontend on Vercel and backend services on Render.

AI-Powered Recipe Generator | React.js, Custom CSS3, JavaScript

[Jan 2026]

- Engineered a full-stack web application utilizing React.js and a Node.js/Express backend, enabling users to dynamically input and manage a real-time inventory of available ingredients.
- Integrated the Gemini API to intelligently process user-defined data structures, dynamically generating highly customized, perfectly formatted culinary suggestions based on active inventory.

DinoNaur | React.js, REST APIs, React-Virtuoso, Leaflet.js

[Mar 2026]

- Built a high-performance scientific web application indexing over 2,500 dinosaur genera using live paleontological datasets from the Paleobiology Database (PBDB) API.
- Implemented DOM virtualization using React-Virtuoso to efficiently render large datasets while maintaining smooth performance and low memory consumption.
- Integrated interactive fossil discovery maps with Leaflet.js and dynamic API-driven content to provide an engaging educational user experience.

SKILLS

- **Languages:** Java, JavaScript (ES6+), Python, C++, SQL
- **Frontend Frameworks & State:** React.js, Redux, HTML5, CSS3, Tailwind CSS
- **Backend & Databases:** Node.js, Express.js, MongoDB, MySQL, REST APIs, JWT Authentication
- **Tools & Technologies:** Git, GitHub, Vercel, Render, AI Integration, React-Virtuoso, Leaflet.js
